# $43 million for a Swiss Cheese Union Contract?!

That's how much nurses at Corewell East are paying for their first 3-year union contract negotiated by the Teamsters.

10,000 nurses paying an average of $120 per month, $1,440 in dues each year or **~$14.4 million annually.**[1]

## What are Corewell nurses getting for their first union contract?

- Smaller raises after receiving a union contract
- Smaller raises than non-unionized employees

---

## And no change in...

- Staffing Ratios (nurse committee only)
- Paid Time Off
- Safety procedures
- Retirement plans
- Pay for jury duty, bereavement or holidays

## And much more

**"I don't know any nurse who thinks the contract is a good deal."**

**– Corewell East nurse**[1]

You can ask the union to show you other contracts where their promises were kept, but don't hold your breath.

The **one guarantee** in this contract is **nurses will pay dues.**
